ROUNDING UP NIGHT RIDERS.

Five Indictments Returned at Benton on Gilbertville Raid by Special Grand Jury.

STATEMENT FROM A. S. OF E.

The Notice Which was Distributed on The Streets of Marion Applies to Burley District.

Paducah, Ky., March 28.—Five indictments were returned late yesterday afternoon by the special grand jury at Benton against alleged night riders who visited Gilbertsville a few nights ago and put the citizens in terror. Their names are withheld as publicity would interfere with their arrest.

The grand jury reported that it was making good headway in the night rider raid at Birmingham, where two negroes were killed, but desired further time to complete the investigation. Judge Reed had planned a trip, but said he would defer it until the grand jury had completed its work and extended its session until next Wednesday, when he will go back to Benton to hear the grand jury's report. There will be indictments in the Birmingham raid, this assurance being given the court. Several more witnesses have been summoned from various sections of Marshall and Lyon counties and still more are to be summoned.

Judge W. M. Reed, Commonwealth's Attorney John G. Lovett and Sheriff Pete Eley are working hand in hand to bring the night riders to justice. They say that the Marshall Circuit Court is going to do its duty and set an example for the state. The night riders are known to the officials and it is only a question of whether they can get sufficient evidence to convict them. The night riders are said to be badly frightened and some of them may get away before they are apprehended. The court officials say the conviction of a few of the unlawful band will put a stop to night riding in this end of the state.

Big Fire at Mattoon.

Last Thursday night a big stock barn belonging to G. D. Summerville, at Mattoon, about eight miles North of Marion was destroyed by fire.

The north side of the barn was entirely gone when discovered, but Mr. Summerville succeeded in saving his buggy, two horses, two mules and his wagon but all the hay and corn, and harness were burned.

There was four hundred dollars insurance on the building and one hundred on the contents.

It is not known how the fire originated, but is thought to be of incendiary nature.

FISCAL COURT

Makes Appropriation of \$1,250 to Build Bridge at Dunn Springs ---Good Investment.

It having been reported that there is likely to be trouble in Crittenden county if the people raise tobacco. We take this method to state that we have no knowledge of any effort being made, from any source, to cut out the tobacco in this district this year.

We know that the notice distributed on the streets of Marion, which cause so much comment, only applies to the Burley District and does not effect this county.

As county officers of the American Society of Equity we assure you that the Society is on friendly terms with all the tobacco associations in this vicinity and we see no reason, nor do we believe that any exists which would cause any disturbance in Crittenden county this year.

Nearly a Hundred Soldiers to Resist Night Riders.

Murray, Ky., 3.—Soldiers to the number of 85 arrived here last night to resist a force of one hundred and fifty night riders forming in this county. These night riders were ready to attack the city Wednesday night and to burn all warehouses, but the citizens organized hastily, and threw a picket around the town. No one has slept in two nights and excitement is at a high pitch.

A man who was whipped out in the county Tuesday night was sent into town by the riders to carry word that they were coming to spread fire and lead. Requests for the soldiers was instantly made and they arrived last night.

Colonial Empire, the Unknown Philippines.

Camp Keithley, Midd. P. I., Feb. 16, 1908.—As attractive, perhaps, as any other land under the stars and stripes are the vast unknown Philippines.

The Philippines outside the cities, which present a phase of the archipelago that Americans in the islands are just beginning to appreciate, but with which the people of the United States are almost as unfamiliar as they are with the black heart of Africa.

PHILIPPINES LARGER THAN BRITAIN.

Picture, if you will, the huge Philippines, seven thousand square miles larger than the British Isles, though with only one fifth of England's population. An insignificant proportion of their eight million Malay people dwell in great cities, the rest live in scattered hamlets and communities along the seacoasts and in the great interior. Valleys and plains, there is but one notable exception to this distribution of the people, that of the hardy Igorrotes: those most prodigious workers and scientific irrigators, who to a number probably exceeding three hundred thousand, make their homes in the almost inaccessible mountain heights of interior Luzon, and a minor exception is found in the case of a few wild fugitive tribes, like the Negritos and Tirrays, who dwell for the most part in the deep forests of the coast ranges.

Because these millions live a command life and seldom leave the locality in which they are born, they are unknown even to the leaders of their own people.

There are today in the unknown Philippines, in the remote provinces and far from the cities, many young Americans who are starting up plantations and who swear by the country.

It is of these pioneers that you will learn something new about the Philippines. I know many who have been in the Islands for or six years and have not had a sick day. I have myself been in the Islands off and on since 1901, and have never had any sickness.

Down at Davao on the huge Islands of Mindanao, there are about forty Americans, most former soldiers who have served their enlistments and are now owning and managing their own plantation. Those men

RECIPE FOR RHEUMATISM.

Directions To Prepare Simple, Yet Remarkable Home Mixture. Read Carefully.

There is so much Rheumatism here in our neighborhood now that the following advice by an eminent authority, who writes for readers of a large Eastern daily paper, will be highly appreciated by those who suffer.

Get from any good pharmacy one half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bed time; also drink plenty of good water.

It is claimed that there are few victims of this dread and tortuous disease who will fail to find relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminating tissues of the kidneys, so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only rheumatism, but numerous other diseases.

The accident occurred about eleven o'clock at the McAllister home near the Chalybeate Springs.

our early West who divided their time between shooting the skulking Indians and cultivating their crops were not greater pioneers than the soldier boys in the Philippines who have turned farmers, and who are making success of their great undertakings.

THE TAGALOG.

The Tagalog, who numbers almost a million and one-half, are the most mentally alert race in the Islands.

For generations they have lived in and near Manila, in closer contact with the white race than any other: they are not nearly as strong physically as the Visayans, Ilocanos, Bicolos or some others, but these people are all sorts and conditions of Filipinos people. It would be as difficult to describe them as it would be to describe the people of the United States.

PAGAN TRIBES.

A traveler through the Philippines would have to speak in sixty seven dialects to talk to all the tribes in their own language, some of the uncivilized Pagan tribes are almost unknown.

The northern coast of Luzon and the heart of Mindanao have never been thoroughly penetrated by the

Horrible Accident.

While several little boys were shooting frogs in a pond near Salem Corbie Franklin, the thirteen year old son of Lawson Franklin was shot and instantly killed, Friday afternoon.

The investigation by the Coroner showed he was accidentally killed by a target gun in the hands of the twelve year old son, of the Hon. James Summers. The boys were in the habit of playing together and were great chums. The Summers boy is almost wild in distress as he realizes more and more the loss of his little friend and playmate.

NEW STATE LAWS

Acts of the Late Legislature Presented Here In Concise Form.

SOME OF VITAL IMPORTANCE

While Not So Many Laws Were Enacted as by Previous General Assembly, Some Acts Stand High.

Reorganization of the Kentucky School System Was One of the Measures of Large Importance.

Far-Reaching Action Was Taken Toward a Regulation of Tobacco Business in the State.

Among the Measures That Failed Were the County Option Bill and the Reapportionment Bill.

The Kentucky Legislature that adjourned on March 15th did not enact as many laws as its predecessor, but some of the laws are of vital importance. Chief among these are the following: Act abolishing the present school trustee system and establishing county boards to control the schools and teachers; act to prevent a man from selling his tobacco after he pools it; act appropriating \$476,000 to complete the new Statehouse and maintain it; act appropriating \$300,000 to the two Normal Schools and \$200,000 to the State University; act putting poorhouses out of business; act giving state aid to all tuberculosis sanatoriums, act providing for a vote to annul the constitution so as to permit state aid to public road building; act authorizing warehousemen to commingle tobacco of like grades; act further regulating the employment of children in factories, and an act providing the tax penalty shall not go on until December 1 each year.

The bill to extend the county unit local option law to all counties in the state failed to pass, as did the bills to redistrict the senatorial and representative districts, and the bill requiring all buyers of tobacco to pay a license fee.

The governor vetoed a number of bills, the most important one being the Arnett bill exempting from taxation stock in foreign corporations owned by residents of Kentucky.

The total amount of all appropriation bills is about \$1,325,000, and the session of sixty days cost about \$20,000.

Governor Wilson gave out a statement regarding his considerable legal reasons for vetoing several appropriation bills passed by the legislature. The principal bill vetoed was the measure appropriating \$100,000 for the construction of a state tuberculosis sanatorium. Three or four other measures were similarly vetoed, but the state, on the other hand, is when the session adjourned, and the other bills were either passed or were not voted on.

On the 10th of March, the legislature was adjourned to the 1st of April.

1. Cresselus—Act providing a fine for the seller and the buyer of a crop of tobacco that has been pooled unless sold by consent of the pooling organization.

2. McCord—Act providing a fine for the sale or transfer of a piece of personal property where the possession is in one person and the property is vested in another. (A companion bill to No. 101.)

3. Waugh—Act increasing the annual appropriation for the Kentucky Children's Home Society from \$1,000 to \$10,000.

4. Waugh—Act increasing the annual appropriation for the Kentucky Children's Home Society from \$1,000 to \$10,000.

36. Haswell—Act allowing the State Librarian a salary of \$10 per month.

37. Buford—Act defining the crime of alienation and fixing a severe penalty therefor.

38. Sullivan—Act for the government and regulation of common schools, abolishes the present trustee system and creates the county board system; does not apply to cities, towns and graded school districts.

39. Porter—Act amending the revenue law so that the penalty does not go on until December 1 each year.

40. Shanks—Act changing time of holding circuit court in the Thirteenth district.

41. Klar—Act to provide for the care and custody of courthouse in counties containing second class cities; applies especially to Lexington.

42. Riles Committee—Act giving chief clerks of Senate and House 30 days' pay to prepare permanent copy of journals of each house.

43. Nichols—Act giving defendant in felony cases ten peremptory challenges and Commonwealth three.

44. Wallace—Act allowing penalties to members of Veteran Volunteer Firemen's Association, of Louisville.

45. Porter—Act authorizing sheriffs to pay election officers as soon as work is completed.

CURE YOUR KIDNEYS.

Do not Endanger Life When a Marion
Citizen Shows You the Cure.

Why will people continue to suffer
the agonies of kidney complaint,
backache, urinary disorders, lameness
headaches, languor, why allow them-
selves to become chronic invalids,
when a certain cure is offered them?

Doan's Kidney Pills is the remedy
to use, because it gives to the kidneys
the help they need to perform their
work.

If you have any, even one of the
symptoms of kidney diseases, cure
yourself now, before diabetes, drop-
sy or Bright's disease sets in. Read
this Marion testimony.

W. Tabor, Marion, Ky., says: "I
suffered for ten years from kidney
trouble. There were severe pains in
the small of my back. I was unable
to sleep at night, arose in the morning
feeling very lame and sore and
during the day was tired and languid.
I was very nervous, headaches were
of frequent occurrence and I often
suffered from dizzy spells. My eye-
sight seemed affected, as there was
often a blurring before my eyes.
They kidneys themselves were in a
disordered condition, the secretions
passed to freely and when allowed to
stand contained a heavy sediment.
It was finally my good fortune to
procure Doan's Kidney Pills at
Haynes & Taylor's drug store. I
took them according to directions
and in three weeks felt great relief.
Thus encouraged, I continued taking
them and the use of one box made a
complete cure. Your medicine is an
excellent remedy for the kidneys and
I would recommend it to any one
suffering from kidneys complaint."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,

States.

Remember the name—Doan's—and
take no other.

Heart Strength

Heart strength, or Heart Weakness, means Never
Strength, or Heart Weakness—nothing more. Per-
sistently, not one weak heart in a hundred. In it-
self, heart disease is not a disease. It is almost always
hidden tiny little nerve that really is all at fault.
This obscure nerve—the Cardiac, or Heart Nerve
simply nerve, are met more power, more
strength, in the central nervous system, giving
strength. Without that the heart must continue
to fall, and the stomach and kidneys also have
these same controlling nerves.

The results of what we do are positive. Dr.
Shoop's Restorative has all been done so much
for weak and failing hearts. Dr. Shoop first sought
the cause of all this painful, pulsating, suffocating
heart distress. Dr. Shoop's Restorative—the
painless, painless, non-stimulating, non-stimulating
weak and wasting nerve centers. It builds
up strength. It offers real, genuine heart help.

If you would have strong hearts, strong dig-
gestion, strengthen these nerves—re-establish
them as needed, with

THURSDAY, APRIL 9, 1908.

Our business motto:
"Le jour, c'est aujourd'hui."

"A dollar looks big now."

When hope and bustle are hitched
together, things just naturally lumpy!

Elsewhere in this paper will be
found a complete list of all bills
passed by the last legislature which
have become laws.

It you will try as hard to win your
boy's love as you did to win his
mother's you will attain to a position
of influence in his heart that will
enable you to direct the current of
his entire life into the proper chan-
nels.

If it is good business sense to have
the store open only "once in a while"—
or to have clerks on duty, or a de-
livery service in operation, only "once
in a while"—then perhaps, it is also
well to advertise adequately only
"once in a while."

Makes Hogs Fatten.

W. T. Crosthwaite, Lexington,
Ky., says: "I gave your Bourbon
Hog Cholera Remedy to some hogs
that were not thrifty and weighed
only a hundred pounds when my oth-
er hogs of the same age weighed two
hundred pounds. I never saw hogs
grow and fatten as fast as these
hogs did after I gave them this
remedy." Sold by Haynes & Tay-
or.

After Twenty-Nine Years.

"For twenty-nine years I have
been at intervals a great sufferer
from rheumatism," writes James
Hyde, of Beebe, Ark. "During
that time I used gallons of various
kinds of liniments and oils, but got
very little relief. The attacks were
so bad that I was often confined to
my bed helpless for weeks and months
at a time.

"Not long ago, while suffering
from a severe attack, a sample bottle
of Sloan's Liniment was sent to me
for trial. My surprise was great
when I found that it gave me instant
relief, and I immediately ordered
two large bottles. I have used
about a half of one fifty-cent bottle,
and feel so well that I want everybody
afflicted as I was to know what
Sloan's Liniment has done for me,
and I shall always have a feeling of
gratitude for the man who sent me
the sample bottle."

Letter From Wiggins, Mississippi.

Wiggins, Miss., April 4th, 1908.
Mr. Editor.—If you will grant me a
little space I will try and comply
with a promise to many friends in
Old Kentucky. Almost a year has
passed since we bid good bye to
friends and loved ones and turned
our faces southward. How time
flies, and in its passings so many
have been called from this work of
men. Let us all try to live, so when
we too are called, we'll be ready to
go. We have made many warm
true friends here, but I think we are
affected somewhat with the enlargement
of the heart for not one of the
old ones are the least crowded.

Here as elsewhere we have our ups
and downs, appointments and dis-
appointments. We've been blessed
with health and plenty to eat (some-
times), but it would break a hungry
man's heart to see us eat when
we get a chance. We are trying a
new venture this year. A truck
growers organized at Wiggins this
winter and we "joined" so now we
have to truckle (I believe that's it).
There is about seventy-five members
and about 200 acres pledged. The
main part cabbage and tomatoes.

We have corn, peas, potatoes, on-

ions, lettuce, and etc., growing.
Have about 5,500 cabbage in the
field and 6,500 tomatoes transplanted
to cold frame. Have water melons
cantaloupes bean and cucumbers planted
and have four or five bushels of
sweet potatoes. Now Mr. Editor
there is lots of possums down here
and the best place to raise tatoes and
they are the sweetest and best you
ever eat, just come down and we will
have a barbecue.

Today feels like sure enough spring.
They claim this has been an unusual
cold winter, but we have not had a
day cold enough to make Lige Franklin
think of his coat.

white man. The regions are some
of the richest in the world and if in-
habited at all, are only the homes
of nomadic tribes. The Pagan tribes
or savages number about six hun-
dred thousand and, with the excep-
tion of the Igorrotes, are generally
most primitive.

THE IGORROTES.

The Igorrotes, who can neither
read or write, who have no signs or
symbols such as even the cave-dwellers
scratched upon the rocks, have
just developed some of the most
amazing irrigation works in the
world. They terrace mountain can-
yon's to a height of three thousand
feet and grow rice on the summit of
each flooded terrace. They often
mix the water used for irrigation
with an enriching sediment and thus
irrigate and fertilize with one opera-
tion, a step ahead of the United
States.

The number of Igorrotes is probably
over three hundred thousand, they
are a jolly, peaceable and hos-
pitable people, though the tribes
engage in bitter feuds that are car-
ried from father to son. Head hunting
is occasionally still practised in the
most inaccessible Igorroto communities.

The Igorrotes are fine workers,
and some of the best trails in the
islands are to be found among the
mountains in the heart of Luzon.

THE MORO'S.

All the wild tribes are amenable
to civilization, even the Moro's who are Philippine
Malaes, who believe in Mohammed, are
taking readily to public market
places where they sell jungle produce
for cash.

The industrial conversion of the
Moro's is remarkable, for no belief
affords greater resistance to the in-
culcating of the white man's civilization
than does the belief of the fol-
lowers of the prophet.

The Island of Mindanao is about
the only one in the Philippine group,
that there is any trouble on at the
present time. There is an expedition

out in the field now, which consists
of two troops of the 6th Cavalry,
six Companies of the 1st Infantry,
six Companies of the 2nd Infantry
and the same number of the 25th
Infantry and Battery D, 4th Field
Artillery (a mountain Battery) and
several Companies of native troops,
all together about fifteen hundred
soldiers, but at present everything is
quiet here at Camp Keithley, so having
written quite a long letter and
hoping that it may find space in the
columns of your valuable paper, and
not in the waste basket, I shall bring
my letter to a close, with thanks to the
RECORD-PRESS and its readers.

I remain
Very Respectfully,

500 Pictures of Roosevelt AND Farm and Fireside for 1908

Free With Your Subscription To The
Crittenden Record--Press

If you will send us \$1.00 cash in advance for a year's subscription to the CRITTENDEN RECORD-PRESS or if you are in arrears, and will pay up back dues, we will send you, free of charge, Farm and Fireside twice a month for the rest of 1908 (nine months), and 500 Pictures of President Roosevelt besides.

FARM AND FIRESIDE

is the National farm paper. It prints and circulates each month more copies than any other agricultural publication. For over thirty years it has been "The Giant of the Farm Press," and now it is bigger, better and more helpful than ever. Has departments covering every phase of farm life, from plowing to the kitchen. Interests not only farmers, but horsemen, poultrymen—in fact, any one who keeps animals or lives outside of the large cities. Has thousands of readers in every state in the Union. Farm and Fireside is published twice a month, which is twice as often as most farm journals are published. It stops when your time is up. We heartily recommend it to all our readers as the cleanest, brightest, biggest and most helpful farm paper we know of.

THE 500 ROOSEVELT PICTURES

are all arranged on one superb mounting, 134 x 204 inches, into one big photograph, but every picture is separate and distinct from each of the other pictures. This photograph of 500 pictures is the most wonderful photograph ever made, and the only one of its kind in existence. It cost \$1,000. No other like it can ever be made of President Roosevelt, and there is probably no other public man on earth who has had enough "snapshots" taken to make a picture of this sort. It took one man two months merely to put together the 500 pictures, and two other men worked just about as long making the prints. The 500 pictures were chosen from 2,500 in the possession of Underwood & Underwood, the President's official photographers, and they show the President in his most characteristic attitudes. They were taken in every state in the Union except four, and at some of the most important events that have taken place in American history. Five years from now, reproductions of this great \$1,000 photograph will be worth many dollars, as the supply is limited, and later on, when President Roosevelt is out of public life, they will be priceless treasures in any American home. The reproductions of this great photograph are entirely controlled by Farm and Fireside, which owns the original \$1,000 photograph.

Remember, you get the Farm and Fireside, the 500 Pictures of Roosevelt, and The CRITTENDEN RECORD-PRESS all for only \$1.00. Send your subscription today and address The CRITTENDEN RECORD-PRESS.

THOUGHTS ON BUSINESS

BY

WALDO FONDRAY WARREN

BUSINESS METHODS IN SCHOOLS

EARLY every educational institution in the country is open to criticism from the business man's point of view because it violates one of the first principles of sound business. That principle is—to work every man at his best capacity. The business man employs an assistant to save his time, a stenographer to save the assistant's time, an office boy to save the stenographer's time, and modern office devices to save the boy's time. All business organization is based on this principle.

The educational institution often ignores this principle and requires its most capable workers to do certain work that less skilled persons could do. The keeping of laborious records, and all the multiplied detail attendant upon the conduct of classes, might properly be placed in the hands of persons especially suited to the work, leaving the instructors free to do their best in those higher lines of work for which they are prepared.

It is partly because of the unbusinesslike methods used in many of the schools, and the lack of appreciation of the economies and principles of business, that young men come from the schools unprepared to take such part in the business world as their age and talents in some directions ought to entitle them to take.

DEEP MYSTERY OF THE SEA

How Came Portrait of American Captain, Lost with His Ship, on African Coast?

They that go down to the sea in ships learn much of the mysteries of life. From the coast of Africa there traveled to Scarborough, Me., the painting of an old-time sea captain of that town, who long years ago was lost, with all on board his ship in the China seas. The ship sailed from the home port with every prospect of a successful voyage, but she never returned to the home land. Years went by and she was given up as lost; her name was taken from the shipping list, and no news of her came back to the waiting ones at home. Long afterwards a passing vessel picked up off the African coast the portrait of an American sea captain such as the Chinese artists paint, and on the back of the picture was the captain's name and that of the port from which he sailed. The painting was forwarded to the little American town, and it was found to be a picture of the Scarborough sea captain, master of the lost vessel that had left the harbor so many years ago.

SUPER ANGELIC.

George H. Lorimer, the author of "The Letters of a Self-made Merchant to His Son," is no friend, as his writings show, to the high-flown. A practical man, Mr. Lorimer stakes his all upon practical things.

Discussing social veneer at a Lenten debate in Philadelphia, Mr. Lorimer said that in the education of girls the practical did not receive sufficient prominence.

"A young friend of mine in Cynwyd," said the shrewd humorist, "got married last month. He said to me the other day:

"When I married Mamie I thought she was an angel. But, he added, 'I soon found out my mistake.'

"Disappointed?" I asked.

"Disappointed? Not!" he cried. "I found she was a good cook."

FAITHFUL PARROT.

Not long ago a lady, calling on another, noticed the absence of a cherished parrot, and asked what had become of it.

"Oh, I had to give her away."

"Give her away! And you thought so much of her?"

"Yes, but you know I taught her to ask me in the morning, 'Did you sleep well?' and she was such a dear, faultless little thing that she used to wake me up all night long asking me if I slept well. Nothing could cure her of it; she was so morbidly conscientious, and so at last I had to give her to a night editor of our acquaintance."

HOW IT WORKED.

"Well, sir," explained young Mr. Swolebo, "it was like this, I thought my wife might be afraid of tramps so I bought her a watch dog. He was a fierce looking hulk, and I reckoned he'd about fill the bill. I got him in the morning and had him sent right out to the house. When I got home that night, one of the toughest looking hobsos you ever saw was sitting on the porch. 'What in thunder are you doing here?' I asked. 'Well boss,' says he, 'I come lookin' for a handout, an' de lady she gimme 50 cents to stick around an' protect her from dat dog of yours. She's sure scared of 'im!'"

VERY DIFFERENT THING.

"So Mr. Kwanck couldn't save poor Dumbley, after all?"

"No, but then it wasn't the doctor's fault. He was treating Dumbley for lung trouble."

"Well, and wasn't that what killed him?"

"Oh, not at all. It was his heart it stopped beating, you know."

GOING.

"Has your sister made up her mind to go to the theater with me to-night?"

"It don't take her long to make up her mind."

"Then she is going?"

"If she can make up her face it time."—Houston Post.

THE SOURCE LOCATED.

"That speech," said the vociferous statesman, "came from the bottom of my heart."

"Indeed!" rejoined the critical friend. "It sounded to me as if it came entirely from the top of the larynx."

LASCARS ON BRITISH SHIPS

England Seriously Concerned Over Shortage of Seamen to Man Merchant Marine.

England has become seriously concerned over the shortage of seamen to man her merchant marine. Lascars have now largely supplanted the native product. During the last 15 years there has been an increase of 17,103 of these East Indian seamen, as against 510 Britishers. In consequence, the British government issued a notice recently that foreign seamen should not be engaged on British ships in European waters unless they have enough knowledge of English to understand orders given in that language. It is stated that it has been no uncommon thing to find a ship's crew composed of eight or nine nationalities with absolutely no language in common, and perhaps a boatswain who only understands English as "interpreter." The return relating to seamen employed in the British merchant marine shows 30 English and Irish per 10,000, while Scotland supplies 56 and Wales 44.—*Harper's Weekly*.

FEW BEAUTIFUL WOMEN.

"A really beautiful woman is scarcely ever seen, not even in Great Britain, where average good looks are pleasantly paramount," declares Marie Corelli. "Prettiness—the prettiness which is made up of a good skin, bright eyes, soft and abundant hair, and a supple figure—is quite ordinary. It can be seen every day among barmaids, shop girls and milliners' mannequins. But beauty—the divine and subtle charm which enraptures all beholders—the perfect form, united to the perfect face, in which pure and noble thought is expressed in every feature, in every glance of eye, in every smile that make a sweet mouth sweeter—is this what we may search for through all the isles of Britain, and through Europe and America and the whole world beside, and seldom or never find it."

"BE A CORKER."

The man who cannot carry into his place of business some element of hopefulness had better take a day's vacation by visiting some unfortunates worse off than himself and then go back to his work feeling that he has reason to be ashamed of himself. Do not be a sinner, but it's worth the powder if only you coker.

In nine cases out of ten, when the times are out of joint, it's you, mainly, that is "out of joint." You need a straightforward talking to, by somebody who is large-hearted enough to love you with all your faults, and courageous enough to fire the truth at you.

POINTED REMINDER.

Man with the Bulging Brow—The idea of women meddling with politics! What do they know about it? Do you suppose they have the slightest conception of what you mean, for instance, when you talk about the "big stick?"

Man with the Bulbous Nose—That only shows that you don't know how many uses a woman can make of a steel harpoon.

LEAP YEAR WOOING.

The Wooer—Cheer up, little one. I shall be careful and brave. We will soon know our fate. Come what may you shall be mine.

And the leap year girl went to ask the young man's mother.

PHILADELPHIANS BOBBING.

Mrs. Anthony Drexel introduced the court entree into Philadelphia this winter and it is said that society people of that town are priding themselves on their "court bob," the young and supple jointed and the old and weak kneeled, alike, feeling it incumbent upon them to bow that way, now that Mrs. Drexel has taught them.

Miss Reba Hill visited Misses Bertha and Bettie Long Saturday night and Sunday.

Miss Ada Canada of this place visited friends and relatives in Crayne last week.

This is leap year but the girls don't seem to be having much success.

S. H. Hill sold to Jeff Clement a nice bunch of hogs this last week at five cents.

Jamie Clement and little Lester Bigham have been on the sick list, but is very much improved at this writing.

George Swansy will make a crop with Tom Hill this year.

If any one wants to trade horses call on J. C. Adams.

I have received a letter from our old friend M. G. Jacobs of Washington, and he and his least boy Glee, are keeping 'batch' and getting along fine.

APPLEGATE.

Rosie Artack is still on the sick list.

Misses Annie and Rosha Dillard,

There is a reason why so many Studebaker Wagons are sold every year.

WHAT IS SIN?

By REV. A. C. DIXON, D. D.,
Pastor of the Chicago Ave. Moody's
Church, Chicago.

A refusal to trust the trustworthy is a mean sin. To intimate unbelief as to the honesty of an honest man, the truthfulness of a truthful man or the purity of a pure woman is the climax of meanness. But an intimation of unbelief as to the faithfulness of a faithful God is a degree lower in meanness.

What Shall We Do with Sin? Honestly confess it. Do not disbelieve yourself by saying that it has no reality. You know better.

Take God's side against it. The impudent man takes sin's side against God. He justifies or excuses himself. We must fight God on the side of sin or sin on the side of God. Which shall it be? When during the French revolution the Bastille was taken by the mob a prisoner in an inner cell who had been there for 30 years, refused to be liberated. He stood in the door of the dark, damp dungeon and fought away his friends. He had been there so long that he began to regard it as his home and his liberators as intruders.

And such is the attitude of men who have lived for years in sin; they represent honest attempts to free them from the power of their sins. They fight against their friends. They resist God himself. They prefer to live in their dark dungeon of iniquity.

Cease the conflict, friend, on the side of darkness and slavery and begin the battle on God's side against sin.

Lead in Fragrance.

Plants with white blossoms have a larger proportion of fragrant species than any others, next come red, then yellow and blue. Many of the flowers of spring are white and highly fragrant, those of autumn and winter being darker, with less perfume.

then 'round the back yard.

Now that was what we thought when we started to tour the world; but, try as we would, we couldn't keep our place in the procession. We started for the Grand Canyon of the Colorado in Arizona, that was to have been our first stopping place. But we were like the Irishman who started out on a lot to shoot a certain bird; he missed the bird, but killed a frog. He picked it up, and looked at it in surprise. "It's gob," he said. "I knocked the feathers off it, anyway." The Grand Canyon was our bird; we didn't hit it, but we knocked the feathers off it in the way of diverse unexpected adventures, as will be shown later.

The start was propitious, and everything progressed favorably, until Kansas City was reached. We arrived early in the morning and were requested by the conductor to get breakfast at the eating station. Yet that man had seemed to be our friend!

There was a youth at the quick lunch counter who served coffee, and there was a maiden beside him who occasionally changed a plate.

The young man's running fire of remarks to customers, and side compliments to her, sounded something like this:

"See here! If you're finished, get a move on and give somebody else a show! Say, Mama! there's one of them up-town girls that think so much of themselves. Why, they ain't a macker to you! I tell you, you're worth fifteen cents, please, and the cup

don't go with the coffee for a cent," said the young man. "Say, Mama, was you to Nellie last night? I bet you looked out of sight. I couldn't get away from this 'macker'—that's the very best butter, I mean! We got it five miles out in the country. What's that? No, I don't reckon it walked all the way here! Ain't she fresh?"

A stout woman hovered along the aisle seat by the counter, like a perturbed hen trying to find a hole in the chicken yard fence. She held a small tin pail and had evidently come from the car of excursionists attached to our train. She inquired anxiously of the chimney end of the coffee urn.

"Say, young feller, what's yer coffee with a cup?" But chimney end was too closely occupied to heed her. Finally she poked a beetle-browed old gentleman in the back with the dime she held, repeating

"Say, mister, what's coffee with a cup, here?"

ENGLAND SAYS NO ALUM IN FOOD

and strictly prohibits the sale of alum baking powder—

So does France
So does Germany

The sale of alum foods has been made illegal in Washington and the District of Columbia, and alum baking powders are everywhere recognized as injurious.

To protect yourself against alum, when ordering baking powder,

Say plainly—

ROYAL BAKING POWDER

and be very sure you get Royal.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar. It adds to the digestibility and wholesomeness of the food.

The "Silver Plate" is repeated as "SILVER PLATE". It is sold by all leading dealers. Send to the makers for beautifully illustrated catalogues.

Death Was on His Heels.

Jesse P. Morris, of Skippers, Va., had a close call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was on my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and one half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung diseases in all the world. Sold under guarantee at Jas. H. Orme and Haynes & Taylor drug stores. 50c and \$1.00. Trial bottle free.
